100 COMPANIES AND THEIR SUBSIDIARY CORPORATIONS

LISTED ACCORDING TO NET VALUE OF MILITARY

PRIME CONTRACT AWARDS

Fiscal Year 1964
(July 1963 - June 1964)

The 100 companies and their subsidiaries which received the largest dollar volume of military prime contracts of \$10,000 or more in fiscal year 1964 accounted for 73.4% of the United States total. This is a decrease of 0.5 percentage points from the 73.9% during fiscal year 1963. The table below shows that the 73.4% of prime contracts awarded to the top 100 corporate groups during fiscal year 1964 was somewhat lower than the average over the last 7 years. The first 10 companies had 1.7% more of the total than in fiscal year 1963, while the remaining companies had an overall decrease of 2.2%. It should be noted that about one-half of the military work of the large concerns is subcontracted with approximately 40% of the amount subcontracted going to small business concerns.

Boeing Company in second place with contract awards of \$1,365.2 million (5.4%), occupies the same position as in fiscal year 1963. Its contract work was almost entirely in aircraft and missiles. The principal missile project is the Minuteman ICBM Missile. Aircraft projects include KC-135 Troop and Cargo Transports, CH-47A Chinook Troop Transport, CH-46A Sea Knight Assault Transport Helicopters, and modification of B-52 Strato Fortress bombers.

McDonnell Aircraft Corp., whose contracts totalled \$1,157.4 million (4.6%), ranks third. This compares with a contract value of \$497.0 million and 9th position in fiscal year 1963. The prime contract work of the company is predominantly for the production of the F-4 series of Phantom II fighter-bomber and reconnaissance aircraft for Navy and Air Force.

North American Aviation, Inc. received \$1,019.5 million (4.1%) in awards, dropping from 3rd place in fiscal year 1963 to 4th place in fiscal year 1964. Its major projects include research and development of the B-70 aircraft, the production of the A-5 Vigilante and T-39 Sabreliner aircraft, missile propulsion equipment, and a wide variety of electronic equipment, including guidance and control for the Minuteman missile and for ship navigational systems.

FOOTNOTES:

- a/ Net value of new procurement actions minus cancellations, terminations and other credit transactions. The data include debit and credit procurement actions of \$10,000 or more, under military supply, service and construction contracts for work in the U. S.; plus awards to listed companies and other identifiable U. S. companies for work overseas.

Procurement actions include definitive contracts, the obligated portions of letter of intent and letter contracts, purchase orders, job orders, task orders, delivery orders, and any other orders against existing contracts. The data do not include that part of open-end or indefinite quantity contracts that have not been translated into specific orders on business firms. The data do not include purchase commitments or pending cancellations that have not yet become mutually binding agreements between the government and the company.

- b/ The assignment of subsidiaries to parent companies is based on stock ownership of 50% or more by the parent company, as indicated by data published in standard industrial reference sources. The company totals do not include contracts made by other U. S. Government agencies and financed with Department of Defense funds, or contracts awarded in foreign nations through their respective governments. The company names and corporate structures are those in effect as of 30 June 1964. Only those subsidiaries are shown for which procurement actions have been reported.
- c/ Less than \$50,000.
- d/ Less than 0.05%
- e/ Includes \$41.3 million in prime contracts awarded to Studebaker Corp. for 5-ton trucks prior to the acquisition by Kaiser-Jeep Corp. in February 1964 of Studebaker production facilities in South Bend, Indiana.
- f/ Stock ownership is equally divided between Standard Oil Co. of California and Texaco, Inc.; half of the total of military awards is shown under each of the parent companies.

Office of the Secretary of Defense
